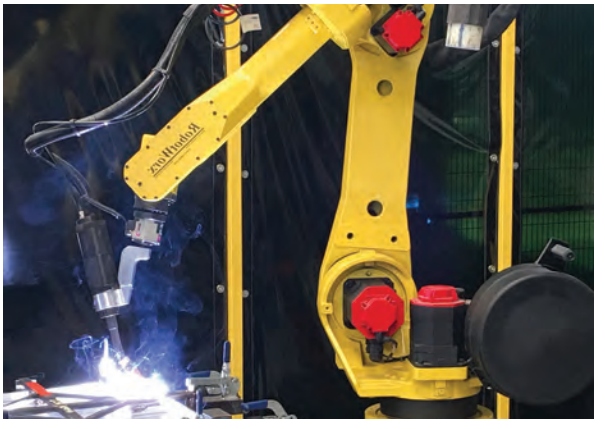
The Factory Tour

A host of machines that cut and bend the extrusions go to work forming the frames. Stacks upon stacks of cut extrusions make their way to the welding room where any one of 59 welding booths awaits the delivery.

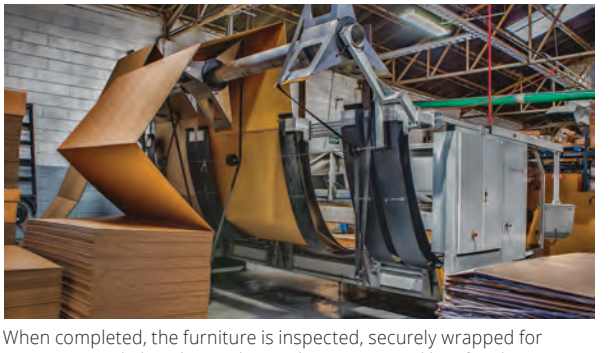
Other departments in the factory are creating furniture components. Some of which include the aluminum stamping machine. This device takes blank aluminum sheets that are placed underneath a die that punches out patterns and shapes for our stamped table tops.



Keeping abreast of the latest manufacturing technology helps us keep costs down while keeping the process lean and efficient. The addition of several robotic welders has proven this approach to be worthwhile. More robotic welding stations are being planned for.

After receiving several washes, the frames are quick dried and enter the powder coating booths. The thick coating of polyester powder covers the raw aluminum with an extremely durable, protective finish coat.

The upholstery department is another large part of the factory where thousands of bolts of fabric, stacks and rolls of foam and fiber are warehoused. Several large cutting tables cut the fabric from patterns in preparation for sewing at any one of the 40 sewing stations.



When completed, the furniture is inspected, securely wrapped for protection and placed into a heavy duty corrugated box for shipping. A newly installed box making machine makes boxes custom sized for each piece of furniture. A process that only takes seconds to complete.

We take quality very seriously. We have our own in-house testing laboratory. This department has many different stations that test the quality of the paint, extrusions, vinyl, etc. Stress tests are also conducted to ensure the frames are strong enough to withstand commercial use.

Pride in Quality. That's what the more than 850 employees of Texacraft focus on every day. We thank you for your business.

- **Table tops are stamped aluminum**
- **Available in all frame finishes (page 189)**
- **Premium cushion features (page 191)**
- **Cushion and pad fabrics selections (pages 192-208)**

Coeur D'Alene

Finish - Patina Weave - Oyster Fabric - 170
Throw Pillows Sold Separately.

Designed by John Caldwell

Oyster Weave

Having the look and feel of real wicker, this proprietary weave creation was the result of dedicated time and effort. The material is a mix of polyethylene and UV inhibitors with no acrylic additives. Both the texture and coloration are achieved from the hands of an extrusion artist who intuitively adds the correct amount of pigment to the weave during precise temperature intervals in the production process. The weave coloration is infused throughout the core of the weave. The result is a beautiful, natural weathered weave material. All pieces of Coeur d'Alene are hand woven, strand by strand, by highly skilled artists. One chair can take more than a day to weave.

- **Available in all frame finishes (page 189)**

Array Daybed

The Array Daybed requires some assembly. Assembly consists of one lower bed frame, four posts, one top canopy. The lower bed unit is fully welded. The four posts attach to the bed frame and to the top canopy with supplied stainless steel bolts. The top canopy is fully welded. The male post fittings provide a sturdy frame when assembled. The bed frame can be surface mounted.

CUSHION DAYBED Order the sling base and order cushion set M1304 or M1304P. When canopy is ordered M31085CS, you must also select a sling fabric for the SHADE as well. Canopy is only available in sling fabrics (woven vinyl fabrics). Frame is available in all frame finishes.

M31085S
Daybed Sling
Shown with optional **M31085CS**
canopy & shades sold separately.
55"W 90"D 17.5"SH
Overall Height: 80"
Weight: 158.5

IMPORTANT ORDERING INFORMATION

When ordering the shade — select sling fabrics only.
Stripe patterns are not recommended.
Acrylic/cushion fabrics cannot be ordered for shades.
See page 191 for premium cushion / pad details

Designed by John Caldwell

M31085S
Daybed Sling
Shown with optional **M31085CS** canopy & shades
and **M1304** cushion set both sold separately.
55”W 90”D 21.5”SH
Overall Height: 80” (With Canopy) Weight: 176.5
M1304P Premium Cushion Set sold separately

M31085S
Daybed Sling Base Without Canopy And Shades
55"W 90"D 45"H 17.5"SH
Weight: 112

The shades are adjustable and are secured to the frame using “C” pockets welded to the 4 posts. The shade rods slip into the “C” pockets with tension that holds them securely in place.

Shade rod secured into “C” pocket.

M1330
Daybed Head Pillow
23. 5"W 9"D 5"H
Fits with or without cushion

The side shades can be pulled up and totally out of the way by simply placing the tension rods in the double “U” brackets located in the top middle of the front and back of the top canopy.

If the canopy is not utilized end caps cover the four corner extrusions of the lower bed frame.

Double skate wheels on the back of lower bed frame allow easy mobility.

Euro Form

The Euro Form Collection is created from either high quality, batch-dyed fiberglass/polypropylene resins or 100% polypropylene depending on model. These very tough materials include UV additives for outdoor exposure. The process of creating the frames involves “air molding” technology which makes it possible to achieve closed shapes and guarantee a more hard-wearing and easy-to-clean product. These products are resistant to sunlight and atmospheric agents.

Texawood

TexaWood is a line of environmentally friendly furniture utilizing 'lumber' made from recycled plastics. The TexaWood 'lumber' begins its transformation with the recycling of post-consumer bottle waste such as milk and detergent bottles and other post-industrial materials. The cleaned and decontaminated materials are compounded into pellets that are melted, molded and extruded into planks of plastic 'lumber' and are available in a host of natural and vibrant colors. By creating the 'lumber' from a single, purified polymer material, the eventual lumber is manufactured to an exacting, reproducible product ensuring uniform quality standards. The end product is a high-density polyethylene (HDPE) material that has the look and texture of real wood.

How does this material withstand the elements? Extremely well! The 'lumber' is tested in thousands of hours of UV and water scenarios with outstanding results. Although some slight color fading could occur during its service life it will be uniform in appearance. This excellent outdoor material needs no waterproofing, painting or staining to maintain its appearance.

Our Adirondack collections are made exclusively with this lumber material and assembled using stainless steel hardware. The Fresco collection incorporates a very heavy wall aluminum frame with planks of the TexaWood lumber. The planks are held in place with stainless steel hardware.

Texacraft's TexaWood collections are perfect for commercial use as they are extremely durable and need little maintenance. A simple wash with the hose will keep the furniture clean and looking good for years of outdoor enjoyment.

NOTE The TCCTF42 and TCCTF48 Fresco fire tables can be hooked up to direct hard lines of natural gas or liquid propane. The burners come standard with a propane orifice, so no additional adjustments would be required to run them on propane. To burn natural gas, an orifice in the gas line must be replaced. The natural gas orifice is included in the burner package, and the instruction manual tells the user how to install it.

Fresco Fire Tables

With push button spark ignitor. Only available in traditional lumber. Ships assembled

Outdoor Power Stations

Wiremold® Tele-Power Poles are a simple, cost-effective way to drop power, communications and A/V in any location away from a wall. Vista Architectural Columns offer the capacity to feed numerous workstations, supply connections to a large area or even support digital signage—all while adding an elegant look to any décor. Power/Light Stations are surface mounted.

- **Charging and Illumination** – Combine charging with accent or area lighting in one pedestal to maximize functionality of outdoor spaces.
- **2- or 3-Gang Options** – Customize the station with two or three gangs of devices to meet your facility's unique needs. Prewired versions include weather-resistant GFCI outlets and 4-port USB outlets. Also available: unwired for complete customization.
- **Outdoor-Rated Construction** – Rugged aluminum form designed for durability in outdoor locations. UL listed to NEMA 3R requirements to ensure optimal performance. Door closes automatically to meet while-in-use requirements.
- **Durable, Premium Finishes** – Available in three outdoor-rated finishes to complement your space design. Choose from black, bronze, and silver to perfectly match your project.
- **A/V & Communication Compatible** – Add an A/V Communication Kit (XCSAV) to 3-gang versions to accommodate Wiremold AVIP plates, as well as decorator A/V or communication devices. Enables pedestal to support outdoor presentation areas and classrooms, eliminating the need to bring cables from inside a building.
- **Device Shelves** – Add up to two pairs of shelves to hold mobile devices while charging.
- **Door Options** – Interior illuminates when door is opened. Replace standard color-matched door with a transparent version to make devices inside more visible. Or, select a lockable door for added security or to ensure use is limited to facility personnel.
- **ADA compliant** – Meets all specifications for ADA guidelines, including unobstructed reach requirements.

Outdoor Power Stations

Charging Station with Area Light
Combine outdoor device charging with an LED light to eliminate the need for a stand-alone bollard. Perfect for use as pathway lighting in educational, corporate and recreational applications.

XCSLF2GRR
Outdoor Charging Station with area light, two gangs, (2) receptacle
8"W 6"D 48"H

XLF-BK
Outdoor Lighting Station only, Black
XLF-BZ
Outdoor Lighting Station only, Bronze

Wieght:30.6

CHARGING STATION INSTALLATION:
Pedestal installs via four L bolts sunk into concrete. Conduit should be stubbed up to a height of 8" for standard power installations. If using AVKIT, conduit should be run up to bottom of power module/door.

To wire, remove four screws from top of pedestal, then remove gasketing and lens (if applicable). Loosen screw inside door area. Power module lifts out of pedestal body, allowing wiring to be pulled up through pedestal. Make all wiring connections, then lower power module back into pedestal body, tighten door area screw, and reassemble top.

LIGHTING STATION INSTALLATION:
Pedestal installs via four L bolts sunk into concrete. Conduit should be stubbed up to a height of 8". All wiring should be completed at base of pedestal, with incoming power wired to included leads

Fiberglass Planters And Containers

Texacraft all weather planters and containers combine natural and synthetic materials to create lightweight, sculptural forms that can be used both OUTDOORS and INDOORS. Carefully made by hand, each piece is constructed from a fiberglass shell with a natural metal finish applied over the top. They are then hand polished to achieve a rich, dimensional surface that will either patina over time or take on a matte finish, depending on the salt content in the air. Most of these commercial grade containers are steel reinforced and are two to three times stronger compared to other manufacturers. The finishes are formulated with high UV and scratch resistant properties creating a very durable exterior fiberglass product. **Not all sizes and colors are stocked for quick shipment. Consult sales rep for availability.**

Prism Fire Tables

- Glass Fiber Reinforced Concrete
- Hand Crafted Pewter Finish
- 65,000 BTUs Orifice
- Propane Gas/Natural Gas Compatible
- 54lbs Lava Rock Included
- Stainless Steel Burner Insert
- Push Button Spark Ignition (Battery Powered)

(Pictured above with tumbled lava rock.)

The Tavola 42 fire table provides an outdoor retreat of warmth and ambiance. Each table has been hand-crafted using our custom patina finishing process, guaranteeing a one-of-a-kind creation with subtle variation. The ambient heat provides plenty of warmth for multiple people. The 65,000 BTUs unit operates on either Propane Gas or Natural Gas. Fire tables have battery spark ignition and ship with two bags of standard lava rock.

(not shown) with 1/4" tempered glass

The Rotondo fire bowl provides an outdoor retreat of warmth and ambiance. Each bowl has been hand-crafted using our custom patina finishing process, guaranteeing a one-of-a-kind creation with subtle variation. The ambient heat provides plenty of warmth for multiple people. The 65,000 BTUs unit operates on either Propane Gas or Natural Gas.

The Porto 68 fire table also offers a clean look and convenience by concealing a propane tank inside. It provides an outdoor retreat of warmth and ambiance. Each table has been hand-crafted using our custom patina finishing process, guaranteeing a one-of-a-kind creation with subtle variation. The 38" by 68" size table provides a beautiful and functional centerpiece for any backyard, patio or lounging area. The ambient heat provides plenty of warmth for multiple people. The 65,000 BTUs unit operates with a standard propane tank that fits directly inside the enclosed unit. (Propane tank not included.)

PH-IGNITE
PH-Ignite
(full electronic
ignition system)

The PH Ignite Electronic Ignition System is the premier ignition system for Prism Hardscapes fire features. Its smart features allow it to reliably ignite and monitor flames. It is hassle-free and conveniently allows easy ignition with a flip of a switch. With the PH Ignite, fire features can be lit from a safe distance without the need of matches.

The **Power Station** is an outdoor enclosure that houses a countdown timer and emergency stop switches. It mounts directly to a concrete pad (for structural support).

It is a decorative and functional piece that looks intentional rather than the typical unsightly junction boxes mounted to the side of a building with exterior conduit going in and out of it.

The decorative “Nest” globe surrounds tempered glass panels. The glass provides wind protection for the flame and helps keep the burner and contents clean. This specially formulated glass does not get excessively hot to the touch.

Only available in Smoke (SM) finish as shown.

Nest Lantern

The Nest Lantern features a brushed stainless steel ‘nest’ pattern for the flame grill. The body of the lantern is made from glass fiber reinforced concrete (GFRC) in the Smoke finish color- a color resembling natural concrete. This unit is fueled by a self-contained Propane tank. The product is designed to use any standard 5 gallon propane tank available at most hardware stores or home improvement centers.

Nest Lantern Features

- **Operates on 5 lb. LP Tank (not included)**
- **Stainless Steel Burner, Hose and Regulator**
- **Flame is adjustable**
- **BTU Rating 20,000 LP**
- **Manual/Piezo Lighting**
- **Manual control valve**
- **Includes 7 lb. Bag of Black Glass**

Cleaning Instructions: Clean your furniture with mild soap and a brush. For best results, use a pressure washer for cleaning Wash outdoor cushions with a solution of mild detergent and water and thoroughly rinse with clear water. Allow cushions to air dry completely.. Do not use abrasive substances. Wash outdoor cushions with a solution of mild detergent and water and thoroughly rinse with clear water. Allow cushions to air dry completely. DO NOT USE A PRESSURE CLEANER ON THE CUSHIONS.

Only Marine Grade Fabrics can be used if furniture is used in-pool. 100% Acrylic Marine Grade Fabrics options are shown on page 167.
If daybed is to be used out of water ONLY, fabrics on pages 192-208 can be used on cushions. Daybed Base color options are shown on page 167

Mirage In-Pool

In or Out. The new Mirage In-Pool collection from Texacraft is made for both in-pool or out of pool use. These products are made of prime quality polyethylene - a material that is shock resistant, durable and will last for many years. Tested to withstand all climates from tropical sun to rugged winters, these products can stay outdoors year-round. All of the plastic material is entirely recyclable. The process of making these products, rotational molding, does not produce any plastic waste.

Concrete Cornhole

Concrete corn hole boards are the regulation American Cornhole Association (ACA) size and slope to ensure perfect playing conditions. Cornhole boards also feature a sloped bag removal area that allows water to efficiently drain away from the board, which keeps the boards cleaner. They are available in standard neutral gray. Cornhole boards are completely constructed out of concrete and have a smooth concrete surface that is polished and sealed for great bag slide. Our custom corn hole boards feature a concrete border that makes mowing simple, and trimming around them is easy and stress-free.

Sets can be installed on sand, compacted gravel or a concrete pad.

BYOB5531 Natural Concrete Gray Cornhole Set of 2
Standard Natural Gray. Contrast sandblasted sides. Includes two coats of sealer and two coats of outdoor wax.
Size: 55"L x 31" W
Weight: 633 lbs. each, 1266 lbs. per set

BYOBB Weather Resistant Toss Bags
Standard colors are Red and Blue
(Set of 8: Choose two colors)

Weather Resistant Bags
Heavy Duty duck canvas cover filled with plastic pellets

Colors:
Bottom Row (left to right): White, Gray, Black, Yellow, Orange, Purple
Top Row (left to right): Red, Blue, Stars, Stripes, Burgundy, Navy Blue, Green

Mirage Cornhole

Cornhole boards are made from a marine grade polymer material. The MGP material is made from post-consumer bottle waste such as milk and detergent bottles. The material is an excellent all-weather material that is extremely stong and will never require painting, staining or weatherproofing to maintain its appearance.

X-CH.000.(COLOR) Mirage Cornhole Board Set
Available in white, grey and beige only
Set includes two boards. **(Bags sold separately)**
Size: 23.625" W x 47.625"L

- Weather and Shock resistant
- Adjustable feet for level playing
- Iron Metallic frame with polyester powder coated paint
- Framework undergoes full, anti-corrosion treatment prior to finish
- Commercial Grade, low maintenance
- Light enough for two-person maneuverability
- Natural rubber rails offer play similar to indoor pool tables
  Play surface is covered with Sunbrella® felt material
  creating less rail friction and balls play faster
- Table top converts to dining table in seconds
- Outdoor rated high pressure laminate tops
- Five colors of pocket colors to select from
- Pool balls are made of Phenolic Resin
- Some assembly required

Outdoor Foosball Table

The outdoor lifestyle foosball table has overcome the challenge of combining elegance, performance, enjoyment and durability. Designed to withstand the elements and provide endless hours of entertainment, this commercial-quality foosball table is a must-have for any outdoor gaming enthusiast.

Crafted with durability in mind, the Outdoor Foosball Table features a rugged black finish that not only adds a touch of elegance but also ensures long-lasting performance. Its sturdy construction and weather-resistant materials make it suitable for any outdoor environment, allowing you to enjoy intense matches without worrying about the table's integrity.

The table boasts a smooth playing surface, meticulously engineered for optimal ball control and precision shots. Its ergonomic handles provide a comfortable grip, allowing players to execute swift maneuvers and outmaneuver their opponents with ease. The precision-machined steel rods glide effortlessly, ensuring fast-paced gameplay that will keep you engaged for hours on end.

Designed with safety in mind, this Outdoor Foosball Table features telescopic rods that prevent the rods from protruding through the opposite side, minimizing the risk of injuries during intense matches. This thoughtful design element makes it suitable for players of all ages, ensuring a safe and enjoyable gaming experience for everyone.

237200 Set of 5 Plastic Foosball balls

FEATURES

- Moabi wood legs known for its rot-resistance
- Moabi wood is one of the most weather resistant wood species
- Resin laminate cabinet for extreme exterior durability
- Playing surface covered in Gerflex over resin laminate panel
- Ships with 5 plastic and 5 natural cork balls
- Some assembly required
- Adjustable feet

Outdoor Ping Pong Table

The **510M** table, manfactured in France, is a stable and durable choice for your outdoor table tennis table needs. This ping pong table is well designed and particularly resistant to rough treatment. Its 100% steel, Aluzinc coated structure, high-density, and solid laminate tabletop, can afford to take a few hits, whether they're from rackets or weather conditions. This is a popular model for schools, hotels, campsites and multi-family use.

The Paramount umbrella redefines outdoor luxury with its seamless blend of innovation and style. Featuring a discreet and whisper-quiet motor, it effortlessly opens and closes at your command via a push button controller. Safety is paramount with its wind sensor, automatically closing the umbrella during high winds. Embracing sustainable energy, the solar charging capability ensures continuous use. The integrated LED lights extend your outdoor moments, casting a warm glow, making it the epitome of sophistication and comfort for any outdoor space.

Open/Close Controller

Canopy Fabric Options

Spectrum Dove Spectrum Indigo

FEATURES

- All umbrellas have LED rib lighting and Central Hub light
- Umbrella can only open with use of "open/close" controller that is mounted to the umbrella pole
- Umbrella can close two ways:
  a. Via open/close controller
  b. Detection of Wind Speed (closes automatically)
- Solar Charging, battery powered operation – completely wireless
- Available in Sunbrella Fabrics:
  Spectrum Dove or Spectrum Indigo
- Aluminum frame

Optional Valance Styles

Valances are a decorative feature that can be added to single or double vented canopies. The following umbrella canopies are examples of some of the optional valance styles. These options can be applied to the following umbrellas: Lucaya, Quatro, Oceana, Riva, Encore and Phoenix.

A contrasting trim color can be ordered on the valance, as some of the pictures show. There are, however, a limited number of trim fabric colors. Consult your sales representative for more information on various valance options.

Note: The valance fabric may be the same as the canopy fabric or a second fabric color can be selected. If a striped fabric is selected, the stripe can be laid to run vertically on the valance.

SINGLE VALANCE

VAL-7896 Single Valance (as shown in image to the left)
For 8' and 9' dia. and 6' square canopy
Also available in canopy sizes:
11' and 13' dia. and 7.5' square

VAL-C-7896 Single Valance added to canopy in contrasting fabric.

SCALLOP VALANCE

VAL-SC-8-3 Scallop Valance, 8' dia. canopy, 3 swags per panel (as shown in image to the left.)
Available in 3, 4, 5 and 6 swags per panel
Available canopy sizes: 8', 9', 11' and 13' dia. and 6' and 7.5' square

VAL-SC-C-(SIZE)-(#SWAGS) Scallop Valance in contrasting fabric

SCALLOP DOUBLE LAYER VALANCE

VAL-SC-DBL-8-6 Scallop Double Layer Valance, 8' dia. canopy, 6 swags per panel (as shown in image to the left)
Available in 3, 4, 5 and 6 swags per panel
Available canopy sizes: 8', 9', 11' and 13' dia. and 6' and 7.5' square

VAL-SC-DBL-C-(SIZE)-(#SWAGS) Scallop Double Layer Valance in contrasting fabric

WAVE SINGLE VALANCE

VAL-WAVE-7896 Wave Style Valance added to canopy in same fabric (as shown in image to the left)
Available canopy sizes:
8', 9', 11' and 13' dia. and 6' and 7.5' square

80.5 lbs.
Freestanding w/ Wheels
4 Hole Drilled

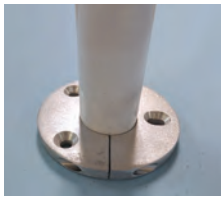
Available in Black (BKN) and Silver (SLV) (Powder coated)

M24RSTEEL Galvanized Steel Plate Base, 24" Round, Fits 1.5" Pole, Freestanding
59.5 lbs.
3 Hole Drilled
Available in Black (BKN) and Silver (SLV) (Powder coated)

M24SSTEEL Galvanized Steel Plate Base, 24" Square, 1.5" Pole, Freestanding
80 lbs.
4 Hole Drilled
Available in Black (BKN) and Silver (SLV) (Powder coated)

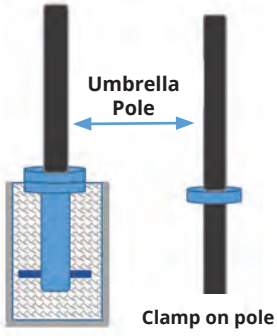
Each umbrella base in the M24 series comes with two umbrella pole sleeves - 13.25" and 7.125" in height.

In-Ground Umbrella Mount Plate



Note: It is highly recommended that when ordering umbrellas to use with in-ground mount to order extra length poles. Add 'XL' to the end of the part number. Ex: 9LPU-XL. (Extension poles are available for Garden, Patio or Market umbrellas)

MT-DECK-AL-2 2" dia. poles
MT-DECK-AL-25 2.5" dia. poles



Overall Inground View

Portion of the mount that is embedded inground is flush with edge

Sunscreens

Sunscreen Umbrellas are semi-permanent structures that are durable and can withstand harsh weather conditions. As with any non-permanent umbrella, awning or shade structure, they will need to be taken down when winds reach unsafe conditions.

For areas that receive snow, we recommend removing and storing the Sunscreens in a dry, safe, protected environment.

5SQ-SUN
Sunscreen 5' Square Umbrella. Surface Mount. Ships with umbrella base for use only with Sunscreen umbrella.

30" Square Base
Stationary- NO SWIVEL, NO TILT
One-piece, heavy duty 2" dia. pole
Steel frame
Two aluminum support ribs
Overall height: approx. 96"
Umbrella Weight: 100 lbs.
Base Weight: 200 lbs.

7RCT-SUN
Sunscreen 7' x 5' Rectangle Umbrella. Surface Mount. Ships with umbrella base for use only with Sunscreen umbrella.

30" Square Base
Stationary- NO SWIVEL, NO TILT
One-piece, heavy duty 2" dia pole
Steel frame
Overall height:
approx. 96 inches
Umbrella Weight: 100 lbs.
Base Weight: 200 lbs.

Texacraft purchases the most durable electrostatic polyester powder available to cover the aluminum frames. This polyester powder is sprayed onto the frames which are then sent through a high temperature oven where the powder melts and bakes onto the frame. Combining such high quality finish components with Texacraft's extensive frame preparation process involving numerous cleaning cycles, the Texacraft finish will provide many years of worry free protection to the furniture frame.

*Glides and end caps are not necessarily color matched to finish color. Black, White or Opaque glides and end caps may be used.

Photographs do not necessarily give the exact color representation of the actual frame finish.

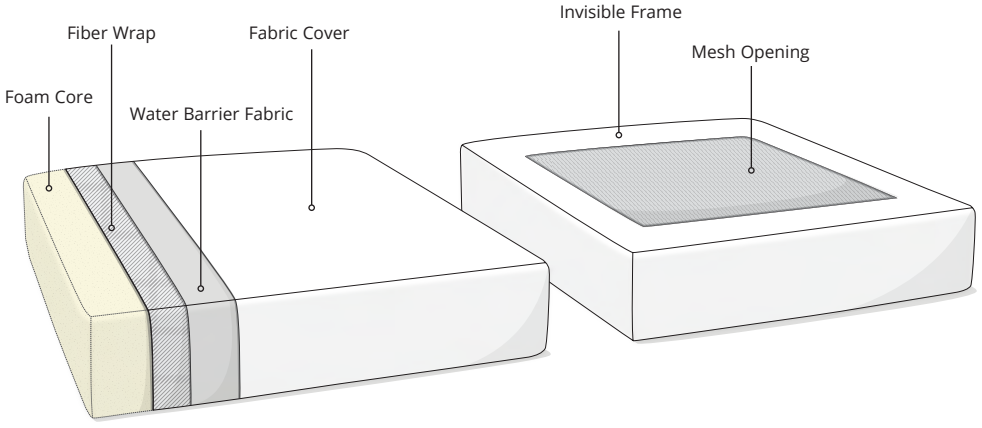
Premium Cushion Construction

Texacraft's standard cushion have provided comfort and performance for our customers for many years and will continue to do so far into the future. With the impetus of the outdoor room that continues to grow more and more each year, Texacraft developed a premium cushion to enhance the performance of outdoor cushions.

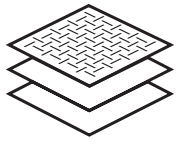
The premium seat cushions, which bear the brunt of exposure and use as well as the target of prolonged rains, were engineered to shed water and keep your seat cushions dry. Should the outer fabric allow water to penetrate, a specially engineered water barrier fabric, that is sealed around the inner foam and fiber, will redirect the water to exit the bottom of the cushion via an open mesh sling fabric. The premium cushion utilizes a firmer foam to provide a fuller cushion appearance and to prolong the useful life of the cushion.

This premium cushion is an option on most collections and is designated with the model number suffix "P".

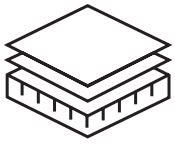


Fabric Cover
Texacraft's fabric offering is extensive with hundreds of fabric to choose from whether 100% acrylic, acrylic blend or PVC coated sling material. Texacraft wants you to create the look you desire. We offer fabrics from the most trusted brands in outdoor fabrics.

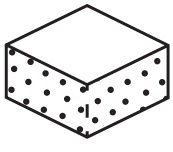
Water Barrier
The water barrier engineering comes from BellBloc® moisture, mold & mildew resistant fabric. The specially engineered fabric repels water around the inner foam structure helping to keep the cushions dry.



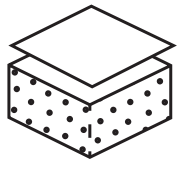
Smart Water Escape
A black, open mesh Textilene® sling fabric is used to allow any penetrating water to escape out the bottom of the cushion. This is a vinyl-coated, polyester fabric with UV inhibitors.



Engineered Comfort
It too the Texacraft team several years of experimentation and testing to develop what we believe is the most effective design to keep outdoor cushions dry. The result is not only functional but also extremely comfortable.



Foam Core
The foam provides overall cushion support and boasts a 1.75-1.95 lbs./ cu. Ft. density rating. This foam meets flammability requirements CA.TB117-2013. Firm yet soft, the foam will help extend the useful life of the cushion.



Fiber Wrap
The Polyester fiber wraps the foam core to add full appearance to the look of the fabric covered cushion while adding another element of softness.

Texacraft offers fabrics from the most trustworthy, recognized names in the outdoor fabric industry. All of Texacraft's fabrics are woven in the USA. Our fabrics fall under three main categories - Woven Vinyl, Woven Blends and Woven Acrylics.

Woven Vinyl — "Mesh" fabric for sling buckets as well as cushions and umbrellas. Woven Vinyl fabrics are created from durable, resilient PVC-coated polyester yarns. These fabrics are extremely strong and flexible (with minimal stretch) so they won't sag or tear under pressure. Being coated in PVC vinyl, the fabric is created to withstand all kinds of weather, is water resistant, and can withstand harsh UV rays.

Woven Blends — Much the same material as Woven Vinyl but WITH the addition of acrylic threads. The acrylic thread component adds some softness to the fabric that tailors very well for cushions and umbrellas.

Woven Acrylics — These outdoor fabrics are made of 100% solution-dyed acrylic fiber yarns. The fibers are saturated with color and UV-stabilized pigments before they are spun into yarn. This means the pigment goes all the way through the fibers and the color stays true over time. Acrylic fabrics have the feel of indoor fabrics but are specially formulated for outdoor use. These fabrics are excellent choices for cushions, pillows and umbrellas.

In addition, Texacraft accepts COM.

Introducing Phifertex® Cushion Fabrics

The eight fabrics below are new Phifertex® Cushion Fabrics- specifically woven to be the perfect combination of comfort, durability and cleanability. These special fabrics have smaller yarns than those traditionally used in vinyl cushions. This allows for a much softer hand than traditional PVC (polyester vinyl coated) woven vinyl fabrics used primarily on sling furniture. These fabrics are NOT made for sling application but they have the same appeal - durable, easy to clean and maintain. No worries about staining. Just simply wash and rinse. The softer hand of the fabric (results from the smaller yarns) provide excellent tailoring results for cushions, pillow and umbrellas. Phifertex® Cushion fabrics are UV resistant and infused with built-in MIcroban® antimicrobial protection for an added level of defense against damaging bacteria, mold and mildew.

Woven Vinyls - Grade B For Cushion and Umbrella ONLY.

Characteristics

•Waterproof •Very flexible composite structure •Multi-layer coating

•Solution dyed •High performance Flexcare treatment

Benefits

•Protection of foam & fiber from the elements, seat hygiene and durability

•Ease of fabrication, excellent deformation resistance, no folds

•Durability and abrasion resistance - intensive usage

•UV resistance •High resistance to dirt and easy to clean

Regular Furniture Maintenance

Fine outdoor furniture deserves exceptional care. Texacraft aluminum outdoor furniture can be enjoyed for many years when well maintained. Wash the furniture with a solution of mild detergent and water, rinse with clear water and dry thoroughly. A clear automobile wax can be applied to smooth frame finishes to provide better protection against harmful ultraviolet exposure and salt air. DO NOT use any kind of wax, abrasive materials or strong detergents on select finishes.

To vinyl, strap and sling seating surfaces, apply a quality vinyl protectant to guard against the effects of air pollution, salt air build-up, and mildew growth. Wash outdoor cushions with a solution of mild detergent and water and thoroughly rinse with clear water. Allow cushions to air dry completely.

For best protection, perform this maintenance two to three times a year, although these durable materials can be safely cleaned as often as desired.

Light stains can be removed with a solution of mild detergent and water, rinsed with clear water and dried thoroughly. Mildew and heavy stains can be removed with a quality commercial outdoor furniture cleaner and protectant.

Note: Some suntan and sun block products may be harmful to cushions, sling and vinyl and straps. Do not allow such products to come in contact with any seating surfaces to avoid deep penetrating stains, which are not covered under warranty.

Do not steam or use water at temperatures above 100°F when washing.

Note: Be careful to keep the cleaner from contact with the cushions of your furniture, as it will cause discoloration. Do not use bleach on printed acrylic fabrics. Do not use solvent-type materials on woven vinyl, woven blend or ultra woven blend fabrics as they will damage the yarns. Do not use chlorine based cleaners.

Terms and Conditions

Prices
All unit prices and discounts are subject to change without notice.

Routing
Unless specific routing is requested, all shipments will be routed at the discretion of our traffic department.

Claims
If there is apparent damage to the containers and furniture, this must be noted on the freight bill at the time of delivery. If concealed damage and/or shortages to containers is discovered when cartons are unpacked, the common carrier must be notified immediately and a claim form filed to collect damages. All damages and/or shortages must be reported within fifteen (15) days of delivery.

Returns
No returns will be accepted unless authorized in advance by the factory and returned freight prepaid. Special return authorization labels must be utilized on all returns.

Rights Reserved
We may, from time to time, make changes in some items we offer. Texacraft® reserves the right to make product changes in design, material and specification or to make product changes without incurring liability or obligation with reference to similar products previously manufactured.

Warranty
Refer to website or contact your sales representative for further information.

Green Statement
As global awareness grows in the importance of protecting our planet, Texacraft®, as part of Brown Jordan International, Inc., is continually seeking opportunities to move forward in our efforts of environmental responsibility.
Refer to website or contact your sales representative for further information.

Texacraft® reserves the right to make minor design changes or modifications and to discontinue finish color, strap color, fabrics or styles without notice. Measurements given are approximate.
